

# Self Employed Tailor

QP Code: PWD/AMH/Q1947

Version: 2.0

NSQF Level: 4

Skill Council for PwD || 501, City Centre, 5th Floor, 12/5, Plot 5, Sector 12, Dwaraka New Delhi 110076

Adoption of Job Role for PwD: Job mapping is critical for skill training of PwD so that the livelihood opportunity looks at him/ her not because he/ she is having a disability but because of the skill. Mapping with a disability involves research with subject matter experts (SMEs) with a view on the industry requirement without compromising on performance outcome. In cases, mapping is also supported by the use of assistive tools/ technology.

### AMH/N0102: Maintain work area, tools and machines

### **Description**

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to organize/ maintain work areas and activities to ensure tools and machines are maintained as per norms. It also covers procedures and compliance standards to identify, prevent, control, minimize and eliminate hazards and potential risks to self and others at the workplace.

### Scope

The scope covers the following:

• Maintain the work area, handle tools and machines

### **Elements and Performance Criteria**

### Maintain the work area, handle tools and machines

To be competent, the user/individual on the job must be able to:

- **PC1.** Handle materials, machinery, equipment and tools safely and correctly to maintain a clean and hazard free working area
- PC2. Use correct lifting and handling procedures
- **PC3.** Use materials efficiently to minimize wastage and dispose off waste safely at the designated location
- **PC4.** Carry out running maintenance and/or cleaning within one's responsibility and agreed schedules
- **PC5.** Report any unsafe or damaged equipment and other dangerous occurrences to the authorized personnel
- **PC6.** Ensure that the correct machine guards are in place
- **PC7.** Work in a comfortable position and maintain correct posture
- **PC8.** Use cleaning equipment and methods appropriate for the work to be carried out

### **Knowledge and Understanding (KU)**

The individual on the job needs to know and understand:

- **KU1.** Importance of good health, personal hygiene and duty of care
- **KU2.** Importance of safe working practices and code of conduct (COC) and Social Accountability standards followed by the organization/ industry
- **KU3.** The limits of your own responsibility
- **KU4.** The production process and the specific work activities that relate to the whole process
- KU5. The line and importance of effective communication with superiors and colleagues
- **KU6.** The organization's rules, codes, quality standards, reporting procedures and guidelines (including timekeeping)
- **KU7.** The importance of complying with written instructions
- **KU8.** The instructions of equipment operating procedures / manufacturer's

- **KU9.** The work instructions and specifications and interpret them accurately
- **KU10.** Method to make use of the information detailed in specifications and instructions
- **KU11.** Relation between work role and the overall manufacturing process
- **KU12.** The importance of taking action when problems are identified
- KU13. Different ways of minimizing waste and proper disposal system for waste and by-products
- **KU14.** The importance of running maintenance and regular cleaning
- **KU15.** Effects of contamination on products i.e., Machine oil, dirt
- **KU16.** Common faults with equipment and the method to rectify
- **KU17.** Maintenance procedures
- **KU18.** Hazards likely to be encountered when conducting routine maintenance
- KU19. Different types of cleaning equipment and substances and their use
- **KU20.** Safe working practices for cleaning and the method of carrying them out

### **Generic Skills (GS)**

User/individual on the job needs to know how to:

- **GS1.** Write and document appropriate technical forms, job cards, inspection sheets as per the required format of the company
- **GS2.** Read and comprehend basic English to interpret indicators in the operating manuals, job cards, visual cards
- GS3. Read and understand manuals, health and safety instructions, memos, reports, job cards etc.
- **GS4.** Speak and communicate effectively with to peers and supervisors
- **GS5.** Give clear detailed instructions to co-workers, subordinates and others
- **GS6.** Use correct technical terms while interacting with supervisor
- **GS7.** Take appropriate decisions regarding your responsibilities
- **GS8.** Assess for any damaged faulty component in the concerned machinery and take action accordingly
- **GS9.** Evaluate the decision and conduct basic trouble shooting
- **GS10.** Plan and manage work routine based on company procedure
- **GS11.** Work with supervisors/ team mates to carry out work related tasks
- **GS12.** Plan for cleaning and lubricating the concerned machinery, tools, and workplace daily before and after operations
- GS13. Ensure and follow organizational procedures pertaining to health and safety are followed
- **GS14.** Solve operational role related issues
- **GS15.** Diagnose common problems in the machine based on visual inspection, sound, temperature etc.
- **GS16.** Analyze, evaluate and apply the information gathered from observation, experience, reasoning, or communication to act efficiently

### AMH/N1947: Drafting and Cutting the Fabric

### **Description**

This unit is about quantification and measurement of skills and competencies enabling one to take accurate measurement of human body parts to proceed for cutting & tailoring.

### Scope

The scope covers the following:

 Handling of measuring equipment, taking measurement correctly, basics of drafting and tools required and fabric cutting technique and factors involved in cutting fabrics.

### **Elements and Performance Criteria**

Handling of measuring equipment, taking measurement correctly, basics of drafting and tools required and fabric cutting technique and factors involved in cutting fabrics

atant tha waariindii idual an tha iah muust ha

To be competer	nt, the user/individual on the job must be able to:
PC1	Take body measurement of the customer or measurement of the available product
PC2.	Select & Use of the appropriate tools & materials for drafting
PC3.	Mark the measurements of a garment on a piece of paper or pattern with the help of the tools and make the standard patterns for reference
PC4	Cut the paper pattern as per the measurement requirement
PC.5.	Place the cut components of paper pattern for cutting the cloth
PC.6.	Select the appropriate tools & materials for cutting
PC7	Measure and confirm the length and width of the material/fabric before starting to cut
PC8	Check & Ensure there are no defects on the material
PC9	Lay the fabric on the table in accordance with fabric grain line, designs, checks or Plains, etc.
PC10	Cut the various garment components with precision with the help of Pattern Paner

PC10.. Cut the various garment components with precision with the help of Pattern Paper

PC11. . Ensure the fabric/material wastage is minimum while cutting

PC12. . Organize cut components in a suitable bundle tied together to ensure there is no mixup.

### **Knowledge and Understanding (KU)**

The individual on the job needs to know and understand:

- KU1. Customer requirements related to style and fashion in vogue in context of the shops capability
- Fabrics (woven, knits, etc.), its characteristics (softness, drape, stretch ability, etc.) and KU2. types (cotton, silk, georgette, crepe, etc.)
- KU3. Fabric shrinkage and its effects.
- KU4. Trims and accessories (buttons, zippers, sequins, beads, etc.)

of

- KU5. Standard size chart for women/men/and children and type of fits
- **KU6.** Made ups and home furnishing articles
- **KU7.** Marking tools and equipment like l-scale, leg curve scale, measuring tape, tracing wheel, etc.
- **KU8.** Methods of calculating the number of components required and correct placement
- **KU9.** Process of drafting on paper
- **KU10.** Main characteristics of the materials, method of identification and the means of cutting operations and subsequent operations for garment making
- **KU11.** Cutting tools and equipment's like scissors, shears, etc. and fabric cutting technique to cut neatly & with precision
- **KU12.** Cutting out, trimming, marking up and correct fitting and margins marking.
- **KU13.** Estimates of material required for a particular garment and their consumption.

### **Generic Skills (GS)**

User/individual on the job needs to know how to:

- **GS1.** Write measurement data in suitable form and sequence
- **GS2.** Write clearly and legibly in local language and English as well
- **GS3.** Record measurement data clearly and in a legible manner for reference when making patterns
- **GS4.** Read and comprehend written instructions
- GS5. Read and comprehend the documents maintained for future reference
- **GS6.** Read, understand and act accordingly when referring the notes taken down for measurement
- **GS7.** Communicate with clients and associate workforce appropriately in local language
- **GS8.** Talk to convey information effectively and understand their exact requirements and expectations
- **GS9.** Follow shop rule-based decision-making process
- **GS10.** Take decision of making a particular depending on the capability and capacity of the shop
- **GS11.** Plan and organize the preparatory tasks to meet the target dates and deadlines
- **GS12.** Plan and organize all the pre-stitching work so as to have a smooth and uninterrupted workflow when stitching the dress
- **GS13.** Understand the customer requirements and stitch the dress accordingly
- **GS14.** Manage relationships with customers who may be angry, frustrated or confused
- **GS15.** Build customer understanding of trust and supports
- **GS16.** Comprehend measurement related inputs
- **GS17.** Propose solution to customers with suitable amendments to size needed to be adjusted over actual measurement to enhance look and appropriateness
- **GS18.** Apply domain information about product, material, processes and technical specifications to identify area of critical concerns like dress size adjustment, suitability of cloth for certain class of dresses etc.
- **GS19.** Analyze the customer requirements with respect to the shops capability and capacity to develop such a design
- **GS20.** Critically evaluate measurement adjustment in relation to person body type

**GS21.** Develop holistic and comprehensive profile of products based on segregated discrete information available

# AMH/N1948: Carry out the process of sewing for dress materials and common household items of textiles

### **Description**

This unit is about quantification and measurement of skills and competencies enabling one to sew cut components and common household items into complete form of finished Garments.

### Scope

The scope covers the following:

• Sewing components into full products (dress and/or common household items of textiles)

### **Elements and Performance Criteria**

Sewing components into full products (dress and/or common household items of textiles)

To be competent, the user/individual on the job must be able to:

- **PC1..** Set machines according to machine manufacturer's instructions and sewing requirements and garment requirements.
- **PC2.** Set machine controls for the materials being stitched for the garment.
- **PC3.** Perform a test run to ensure machine is operating correctly as per requirement
- **PC4.** Join cut components by stitching all panels together.
- **PC.5.** Carry out hand sewing if required (kaj making, button fixing, hemming, or basic embroidery etc.)
- **PC.6.** Make a final cost sheet for the making bill.

### **Knowledge and Understanding (KU)**

The individual on the job needs to know and understand:

- **KU1.** Customer requirements in context of shops capability for stitching quality and product design.
- KU2. Operating the manual, semi-manual, electrically operated sewing machine
- **KU3.** Sequence of sewing the cut components for making garment.
- **KU4.** Basic costing of manufacturing
- **KU5.** Basic embroidery stitches.

### **Generic Skills (GS)**

User/individual on the job needs to know how to:

- **GS1.** Write in simple language the changes done while stitching
- **GS2.** Record cutting details clearly
- **GS3.** Read and comprehend written instructions regarding the measurements
- **GS4.** Communicate with clients and associate workforce appropriately

- GS5. Talk to convey information effectively and in a detailed manner
- **GS6.** Follow shop rule-based decision making process when making minor/major changes while stitching the cut components
- **GS7.** Take decision with systematic course of actions and/or response
- **GS8.** Plan and organize the sewing process so as to meet the target dates and deadlines
- **GS9.** Organize all the tools and equipments required during stitching before hand to avoid any disturbance and possess a smooth workflow
- **GS10.** Stitch dresses as per customer requirements
- **GS11.** Should have a strong reason while explaining the reason for making changes to customers
- **GS12.** Comprehend stitching related inputs given by customer.
- **GS13.** Propose solution to customers with suitable amendments to size to be adjusted over actual measurement to enhance look and appropriateness
- **GS14.** Analyze the final product stitched with the specifications given by the customer & Check for the defects
- GS15. Analyze the minor/major changes while stitching and their reason behind it
- **GS16.** Critically evaluate sewing adjustment in relation to person body type and type of garment
- **GS17.** Develop holistic and comprehensive profile of products based on segregated discrete information available

# AMH/N1949: Carry out inspections and alterations to adjust corrections for fittings

### **Description**

This unit is about quantification and measurement of skills and competencies enabling one to check stitched dress materials for any correction needs to be incorporated through stitching or other sewing processes for correct fit or quality.

### Scope

The scope covers the following:

• Final checking after stitching, identify alteration needs and corrections for fittings.

#### **Elements and Performance Criteria**

### Final checking after stitching, identify alteration needs and corrections for fittings

To be competent, the user/individual on the job must be able to:

- **PC1.** Check fitting of the dress materials onto the customers or check the measurement.
- **PC2.** Record required alteration needs and instructions on tags or labels and attach them to garments.
- **PC3.** Carry out alterations as per records and requirement of customer.

### **Knowledge and Understanding (KU)**

The individual on the job needs to know and understand:

- **KU1.** The person's capability of incorporating changes as per alteration needs in terms of the availability of the required tools and equipments, etc.
- KU2. Handling of seam ripper
- **KU3.** How to make alteration

### **Generic Skills (GS)**

User/individual on the job needs to know how to:

- **GS1.** Document records related to changes being done in the style or size
- **GS2.** Read and comprehend written instructions related to measurement and markings and make the alterations accordingly
- **GS3.** Communicate with customers appropriately when making them try the dresses for an honest feedback about fitting.
- **GS4.** Follow shop rule-based decision making process when making alterations with respect to the targets given for other dresses, etc.
- GS5. Take decision regarding the alterations keeping the customer requirements in mind

- **GS6.** Plan and organize the alteration records with the style to be worked upon to avoid confusions
- **GS7.** Make the alterations in the product as per customer requirements with a logical reasoning
- **GS8.** Build customer relationships and use customer centric approach
- **GS9.** Deal politely with the customers who are unsatisfied with the final product and analyze the problem in product
- **GS10.** Have a solution-giving approach with the customers
- GS11. Make minor alterations before hand when aware about the defect/fault

# Assessment Guidelines and Assessment Weightage

### **Assessment Guidelines**

- 1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC
- 2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC
- 3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS. examination/training center (as per assessment criteria below)
- 4. Individual assessment agencies will create unique question papers for theory part for each candidate at each.
- 5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/training center based on this criteria.
- 6. To pass the Qualification Pack, every trainee should score a minimum of 70% aggregate in QP.
- 7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Minimum Aggregate Passing % at QP Level: 70

(**Please note**: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

## **Assessment Weightage**

### Compulsory NOS

National Occupational Standards	Theory Marks	Practical Marks	Project Marks	Viva Marks	Total Marks	Weightage
AMH/N0102.Maintain work area, tools and machines	14	49	-	7	70	17
AMH/N0104.Comply with industry, regulatory and organizational requirements and Greening of Job roles	20	10	0	10	40	10
