

About us:

ASIAN Educational Charitable Trust is not for profit registered trust incepted in 2015 with the core objective to create an innovative learning environment aimed at developing the mind of participants and building capabilities as opposed to traditional teaching style of preparing, delivering content and evaluating students for tools learnt.

Our focus is on all round growth and development of the participants by not only imparting knowledge and enhancing skills, but also instilling a positive attitude and building a strong mind and body just like “kaushal indian, kushal india”.with the increasing demographic dividend, skill development is the key for us to empower the youth by making them employable and expanding their capabilities for the overall development of the nation.

Our founder’s vast experience of 24 years as practitioner in the medical profession to establish and run medical institutions, we are committed to provide impactful and sustainable training to ripe the fruits of our demographic dividend.

The vision of our trustee members is to provide skills based education to the socially, economically and culturally backward students (especially women) free of cost in the fields of:

- Computer Science
- Beauty & Wellness
- Healthcare
- Apparels

Other activities of trust:

- Regular free health check-up camps in the remote areas where no government facilities are available.
- Seminars and Lectures for educating people especially women in rural area.
