

Need Help in Creating Online Vocational Training Courses

Sir/Madam,

Thank you for taking out your valuable time to read this message.

I run an online learning platform(skillyogi.com) where we produce and provide skill learning courses in Hindi, English and Bengali languages.

We closely work with teachers and institutes in creating video courses which can be learnt online on our platform by students through computer and mobile devices which helps them learn skills to get a job, start a new business or become self-employed

I need your help to connect with instructors and institutes which providing vocational/ITI/Skill Learning offline and help them create video courses.

We share revenue with institutes/teachers and our venture is a for-profit organisation based in Kolkata.

Kindly let me know whom to connect with to discuss further.

Please help me teach skills to million students in India in their native language

Regards,

Amborish Nath
